## NIGHTLIFE

### OPPORTUNITY

Design and install a complete audio and lighting system with the goal of turning Nam Nghi Resort's Rock Island Club into an international party destination.

### SOLUTION

Ba Sao Audio designed and installed a complete HARMAN audio and lighting system that includes JBL speakers, Crown DriveCore, BSS Soundweb London, Soundcraft consoles along with an array of Martin lights.

“

We chose iconic brands by HARMAN Professional Solutions because we wanted premium AV solutions that would provide a unique experience to our guests. No other venue in the city is so well-equipped to provide a scintillating party experience.”

### NAM NGHI RESORT'S ROCK ISLAND CLUB, VIETNAM

Ba Sao Audio recently deployed complete HARMAN Professional Solutions audio and lighting systems at the Rock Island Club at the Nam Nghi Resort.

Located on a small private island offshore from Phu Quoc Island, the Rock Island Club is an outdoor eating, drinking and dancing venue that offers a 360-degree panorama of Phu Quoc's beautiful coastline and a mesmerizing ocean view. The club is renowned for its team of mixologists and chefs, who craft innovative cocktails and provide a contemporary culinary experience. Management recently decided to upgrade the sound and lighting with the intention of turning the Rock Island Club into an international party destination. To achieve this goal, management hired Ba Sao Audio to design and install a complete HARMAN audio and lighting system made up of JBL, Crown, BSS, Soundcraft and Martin solutions.

“Club and DJ events require a comprehensive range of high-quality audio products that provide exquisite sound quality,” said Nguyen Khac Anh, CEO, Ba Sao Investment. “The HARMAN solutions work perfectly for the venue, and the system allows the guests to enjoy crystal-clear music, not only onstage, but in the entire building. HARMAN's wide range of brands provided us with a great deal of flexibility, which has helped turn the Rock Island Club into an incredible party venue.”

The HARMAN system includes JBL Control 31 two-way loudspeakers, which are paired with JBL PRX418S subwoofers to reinforce the bottom end. The system is powered by Crown DriveCore Install and CTs 2000 amplifiers. Audio processing is provided by BSS Soundweb London BLU-100 and BLU-50 signal processors, and a BSS Ethernet controller is used for signal routing. Audio is mixed on Soundcraft Signature 16 consoles. The lighting solution features numerous Martin by HARMAN fixtures, including the RUSH Aqua compact LED, the RUSH Wizard “full-house” effect light, and the RUSH Multibeam 2 LED effect light.

“We chose iconic brands by HARMAN Professional Solutions because we wanted premium AV solutions that would provide a unique experience to our guests,” said the spokesperson for Nam Nghi Resort. “No other venue in the city is so well-equipped to provide a scintillating party experience. We hope to make Rock Island Club a party destination so famous that people will mention it in the same breath as Rock Bar in Bali, or Café Del Mar on the Spanish party isle of Ibiza.”

“We are privileged to offer the highest quality audio experience at the Rock Island Club,” said Ramesh Jayaraman, VP and GM of HARMAN Professional Solutions, APAC. “The sound system perfectly complements the high-end atmosphere of the venue, and sets it apart from the other entertainment resorts. We thank our partner Ba Sao Investment for coordinating with Nam Nghi Resort and delivering an excellent customer experience.”

#### ABOUT HARMAN

HARMAN (harman.com) designs and engineers connected products and solutions for automakers, consumers, and enterprises worldwide, including connected car systems, audio and visual products, enterprise automation solutions; and services supporting the Internet of Things. With leading brands including AKG®, Harman Kardon®, Infinity®, JBL®, Lexicon®, Mark Levinson® and Revel®, HARMAN is admired by audiophiles, musicians and the entertainment venues where they perform around the world. More than 50 million automobiles on the road today are equipped with HARMAN audio and connected car systems. Our software services power billions of mobile devices and systems that are connected, integrated and secure across all platforms, from work and home to car and mobile. HARMAN has a workforce of approximately 30,000 people across the Americas, Europe, and Asia. In March 2017, HARMAN became a wholly-owned subsidiary of Samsung Electronics Co., Ltd.
