

PARTNER STORY

NIGHTLIFE

OPPORTUNITY

To elevate its venue and offer guests an unforgettable clubbing experience, Eon Clublex Ulaanbaatar needed a state-of-the-art audio system that delivers world-class sound quality.

SOLUTION

The club contracted ITC Solutions, which installed a cutting-edge HARMAN Professional audio solution that includes JBL loudspeakers and provides pristine, consistent sound across the venue.

The venue needed a robust audio system that delivers even sound coverage and produces a high-end clubbing atmosphere.”

EON CLUBLEX ULAANBAATAR, MONGOLIA

Known as the ultimate clubbing and partying destination, Eon Clublex Ulaanbaatar is Mongolia’s biggest night club and features state-of-the-art facilities. It consists of the main hall, a VIP lounge and a first-floor lounge. To further enhance the guest experience, the club entrusted ITC Solutions to deliver a premium audio system that provides exceptional sound performance.

“The venue needed a robust audio system that delivers even sound coverage and produces a high-end clubbing atmosphere,” said a spokesperson at ITC Solutions. “We wanted a partner that could set up an ideal audio solution and extend reliable customer service post-installation—that’s why we chose HARMAN.”

Meeting the club’s audio expectations, ITC Solutions deployed JBL VRX932LA-1 and VRX928LA line array loudspeakers, which feature Constant Curvature Waveguide technology to deliver pristine sound quality and unprecedented array coherence. The system also features JBL SRX815P self-powered loudspeakers, SRX818SP subwoofers, Control HST speakers, 8124 in-ceiling loudspeakers as well as the JBLVMA 2120 mixer-amplifier to provide exceptional sound across the venue and create a one-of-a-kind clubbing experience.

To ensure optimum audio performance and appropriate sound levels throughout the club, the system includes Soundcraft Si Expression, EPM6 and FX16ii mixing consoles. In addition to powering the system with Crown Xti 4002, Xti 2002, XTii 6002 and MA 5000i amplifiers, ITC Solutions deployed BSS BLU Link networked audio systems and the dbx DriveRack PA2 loudspeaker management system to connect and fine-tune the expansive audio solution.

“

We wanted a partner that could set up an ideal audio solution and extend reliable customer service post-installation—that’s why we chose HARMAN.”

“We required a sound system that would create an unforgettable clubbing experience for our patrons. We also wanted to partner with a company that could provide dependable customer service after installation,” said a spokesperson at Eon Clublex Ulaanbaatar. “We had immense confidence in the capabilities of ITC Solutions and HARMAN before the project, and we are highly satisfied with the prudent solutions and support that we have received from them.”

“Incorporating audio solutions with the latest technologies, Eon Clublex Ulaanbaatar set a whole new level for clubbing,” said Ramesh Jayaraman, VP & GM HARMAN Professional Solutions, APAC. “We thank ITC Solutions for creating a lively atmosphere and heightening the clubbing experience with world-class sound systems and production levels.”

ABOUT HARMAN

HARMAN (harman.com) designs and engineers connected products and solutions for automakers, consumers, and enterprises worldwide, including connected car systems, audio and visual products, enterprise automation solutions; and services supporting the Internet of Things. With leading brands including AKG®, Harman Kardon®, Infinity®, JBL®, Lexicon®, Mark Levinson® and Revel®, HARMAN is admired by audiophiles, musicians and the entertainment venues where they perform around the world. More than 50 million automobiles on the road today are equipped with HARMAN audio and connected car systems. Our software services power billions of mobile devices and systems that are connected, integrated and secure across all platforms, from work and home to car and mobile. HARMAN has a workforce of approximately 30,000 people across the Americas, Europe, and Asia. In March 2017, HARMAN became a wholly-owned subsidiary of Samsung Electronics Co., Ltd.
