CONVENTION CENTERS

OPPORTUNITY

Ensure that convention center guests receive a world-class audio, video, and lighting experience in five large ballrooms and main lobby.

SOLUTION

Systems integrator Ba Sao implemented a complete HARMAN AV solution consisting of JBL speakers, Soundcraft mixing consoles, a dbx speaker management system and a Martin lighting rig.

66

In order to maintain a standard of excellence across all aspects of our events, I trust HARMAN products to deliver superior audio quality and reliable operation."

VIETNAM'S CAPELLA GALLERY HALL CONVENTION CENTER

Opened in November 2016, the Capella Gallery Hall is an upscale convention center in downtown Ho Chi Minh City. Featuring striking modern architecture and gorgeous interior design, the multifunctional space hosts a wide variety of events, ranging from luxurious weddings and private parties to international business conferences and industry conventions.

To ensure a world-class guest experience in each of its five large ballrooms and main lobby, the Capella Gallery Hall hired systems integrator Ba Sao Investment to implement a complete HARMAN AV solution consisting of JBL speakers, Soundcraft mixing consoles, a dbx speaker management system and a Martin lighting rig.

"Since opening less than a year ago, we have quickly gained a reputation as one of the finest event spaces in the city, hosting very important conferences for local and international businesses alike," said Quang Dat Vu, Technical Manager, Capella Gallery Hall. "In order to maintain a standard of excellence across all aspects of our events, I trust HARMAN products to deliver superior audio quality and reliable operation.

"Each of our grand ballrooms are outfitted with JBL Control 24CT ceiling speakers and dbx DriveRack VENU360 speaker management systems, which provide excellent clarity and perfect coverage," he said. "JBL EON 600 series speakers and subwoofers provide high-impact sound reinforcement when our events feature professional entertainment, and Soundcraft Signature Series consoles ensure the mix is top notch."

In addition to the HARMAN audio equipment, the Capella Gallery Hall installed Martin RUSH lighting fixtures in the Capella Gallery Hall's grand ballrooms to enhance their elegant beauty and provide an engaging visual experience for guests. The Martin RUSH Multibeam 2 is a versatile fixture, providing powerful mid-air effects with its
